Education

- **Bachelor's Degree in Computer Engineering** *2020-24*
  University of Alicante
- **Master of Software Development for Mobile Devices** *2024-25*
  University of Alicante

Experience

- **Software Engineer, Apps Developer** *Alicante, Spain*
  Embention Jun 2026 - Present
  – Develop and maintain desktop and web applications for the control, configuration, and monitoring of safety-critical autopilots, avionics, and ground control solutions for autonomous drones and eVTOL aircraft.
  – Implement cross-platform desktop and web applications utilizing technologies such as Java, Angular, Go, TypeScript, and Wails.

- **Programming Tutor & Instructor**
  Private Lessons Online
  – Delivered private programming lessons to both university undergraduate and vocational training students, focusing on languages such as Python, Java, PHP, and C++.

- **Computer Engineering Internship** *Sant Joan d'Alacant, Spain*
  Dual Link Feb 2023 - Jul 2023
  – Developed native iOS applications using Swift.
  – Designed and implemented an AI-driven tool to streamline application translation and localization.

Technical Skills and Interests

Languages: Java, Typescript, Python, Go, Swift, HTML+CSS
Frameworks: Angular, Ionic, Laravel, Springboot, React, Symfony
Tools: Git, Github, Android Studio, Xcode, VSCode
Databases: Relational Databases(MySql, PostreSQL), MongoDb, Supabase and Firebase
Areas of Interest: Web Development, Cross Platform Apps, Native Android and iOS
Soft Skills: Problem Solving, Self-learning, Adaptability, Analysis and Group Management

Spoken Languages

Armenian: Native
Spanish: Native or Bilingual Proficiency
English: Professional Working Proficiency
Russian: Bilingual Proficiency
Catalan: Elementary Proficiency

Projects

- **Liber Platform (Movie Social Network)**
  Laravel, PHP, PostgreSQL, Bootstrap
  – Engineered a full-stack social network and movie database featuring discussion forums, real-time private messaging, user reviews, customizable movie lists, and detailed pages for films, directors, and cast.
  – Designed and optimized relational database schemas to manage rich user-generated content and media metadata.

- **Caishen Manager (Personal Finance App)**
  Ionic, React, TypeScript, Supabase, Lambda
  – Developed a cross-platform application to manage personal finances, track incomes and expenses, monitor debts, and split shared costs among users.
  – Integrated backend services and serverless logic for real-time data synchronization and secure authentication.
